# Hackathon Days

## Renewable Energy and Energy Efficiency for Sustainable Growth

*Web Conference – Virtual Exhibition*

*22 – 23 February 2022*

**"Hackathon Days"** will be held on 22 – 23 February 2022, focusing on innovative and commercial solutions regarding renewable energy technologies, energy efficiency measures, high technological prototypes, sustainable systems for natural sources management and energy saving, circular economy, etc.

The web conference is part of the **REESTART** project activities (*Renewable Energy and energy Efficiency for Sustainable energy Transition And Reinforced Trust between SMEs and ESCOs*), whose goal is to contribute to promote entrepreneurship, innovation and job creation in support of Lebanon's clean energy transition.

At this scope, Hackathon Days will be carried out with the aim at increasing scientific and technological knowledge of Lebanese ESCOs and SMEs, on the most performing and efficient energy technologies already available on the market, or at their first demonstration stage.

Companies, enterprises and research institutions from all over Europe, selected from Italian and international networks (ICE Italian Agency for Trade and Investment, EEN Enterprise Europe Network, etc.), will join the conference and they will exhibit their innovative technological systems and products, according with the following thematic sessions:

– Power storage, renewable technologies and grid components

– Energy efficiency and circular economy

– Buildings

– ICTs

– Waste heat recovery and bioenergy generation

– Smart mobility and smart cities

They will have the chance to show their own technology/system to the main stakeholders of the energy sector in Lebanon (ESCOs, SMEs, public institutions, research institutes, etc.), which will be in turn invited as auditors within the same thematic sessions. In addition, one-to-one meetings could be even envisaged between European enterprises and Lebanon ESCOs, downstream the conference or during it, according with specific and expressed interests by the Parts.

**To participate as speaker during Hackathon Days and to show your own system/product, please fill in the registration form for technology/market offer and send it to the contact persons you can find below. The deadline for submitting participation in the** conference as speaker is set on 9th February 2022

After this date, detailed program of Hackathon Days will be scheduled, and it will be hereafter communicated to the speakers, as well as the link to join the conference

The web conference will be held by using the commercially on line platform TEAMS.

Presentations will be performed by oral lectures of indicatively 20 minutes each, according with the **presentation ppt. template** you can find attached.

**You can find all information about Hackathon Days on the following website:** www.reestart.eu/events/, **where you can also register your enterprise/company to join the conference and download ppt.template and schedule**

*We are waiting for You!*
